MASTERCLASS SERIES 2023

ONLINE SESSIONS

Tuesdays Sept 5 To Nov 7 2023
7pm-8.30pm

SEPT 5

Keeping up to date with Diabetes Medications

What's new and what's coming? How to use insulin? What are the guidelines and what will PBS subsidise now?

SEPT 12

How to help Your Patients Prevent Diabetes

Why exercise in nature? How do I eat healthily on a budget during inflation? What exercise can I recommend? How can losing weight prevent diabetes?

SEPT 19

Diabetes: It's Complicated

How are sexual dysfunctions, renal disease, cardio-metabolic and Gastroparesis related to diabetes and what can be done about these?

PLEASE NOTE NO MASTERCLASS ON SEPT 24
OR OCT 3 FOR SCHOOL HOLIDAYS

OCT 10

Keeping up to date with Gestational Diabetes

What is new about the diagnosis and what can be done differently?

OCT 17

Tackling Diabetes Town by Town

How can GP Case Conferences improve quality outcomes? How do you hold town hall meetings about diabetes in country towns?

PLEASE NOTE NO MASTERCLASS ON OCT 24
DUE TO FACE TO FACE SESSION ON OCT 21

OCT 31

New Aspects of Diabetes

How can we recognise MAFLD and what can we do about it? How can you manage obesity in general practice? Sleep apnoea and its impact on diabetes.

NOV 7

It's a Weight-y Subject

How do we manage the weight of adolescents in primary care? What are the other causes of obesity? What is involved in a metabolic obesity service?
